On His Own Terms: A Doctor, His Father, And The Myth Of The Good Death

Synopsis

People die the way they live, showing the same weaknesses and strengths in illness as they did in health. This is what Joseph Sacco learned when his ailing father died from lung cancer in 1988. A recent Resident in a Bronx hospital, Dr. Sacco was well-versed in the technical aspects of death, but had never personally confronted it. He was, at first, frustrated by his father's refusal to accept lung cancer and impending death. Finally, Dr. Sacco confronted his own sincerity, both as caretaker of his father, and as a doctor. His insight came too late to help his father, but he asks readers to question the popular conception that acceptance is necessary for a good death. The final lesson of the book is that caretakers are responsible for encouraging the dying in their own path, rather than to impose any preconceptions.

Book Information

Paperback: 150 pages

Publisher: Caveat Press (January 2006)

Language: English

ISBN-10: 0974524522

ISBN-13: 978-0974524528

Product Dimensions: 8.5 x 5.6 x 0.4 inches

Shipping Weight: 5.6 ounces

Average Customer Review: 4.0 out of 5 stars Â See all reviews Â (1 customer review)

Customer Reviews

An interesting approach to an impending death..though Elizabeth Kubler-Ross defined the five necessary steps to acceptance of dying, Dr, Sacco suggests that denial though the whole process is an acceptable and often beneficial way of dealing with the process.
