Customer Reviews

I received the Property and Casualty Insurance License Exam Study Guide: Test Prep and Practice Questions yesterday, and I was very impressed with it. The information is broken up into categories and is very concise. It is easy to follow and review. I think this is an asset to anyone who is preparing to take the property and casualty insurance license exam. The study guide starts with an introduction, eight chapters, a practice test, answer key, and study strategies, and test taking tips. The first four chapters review general insurance concepts, insurance basics, property insurance basics, and types of property insurance. The last four chapters cover casualty insurance basics, types of casualty insurance, other types of policies, and insurance regulations. Each of the eight chapters is broken up into smaller categories. This study guide is definitely worth purchasing if you are taking the insurance license exam. I am not preparing for it myself, but I feel that it offers all the information needed to achieve a high score. I love that it has a practice test and answer key. You can always take a pre-test and post test to see how well you retain the information. I received the Property and Casualty Insurance License Exam Study Guide: Test Prep and Practice Questions for free in exchange for my honest and unbiased review. I have no affiliation with Trivium and the seller of Trivium products, and I do not receive compensation for any of my reviews. This book worried me at first because it was thin, but man - there is a TON of information in here. Trivium Test Prep has done an excellent job putting together this study guide and it is going to be a tremendous help for anyone who is working towards their Property & Casualty Insurance License. This book includes General Insurance Concepts - including Risk & Insurance, Concept Reviews & Chapter Questions to test your knowledge. Then the Insurance Basics including Policies & Legal Considerations with a Chapter Review & Chapter Questions. Then the Property Insurance Basics, Types of Property Insurance (including commercial) with review questions, Casualty Insurance, Types of Casualty Insurance, Other Types of Policies - like aviation, farm property, motor truck cargo, ocean marine, surety bonds, umbrella policies, etc - with review questions. Then it even goes into Insurance Regulations!! This study guide even includes a Glossary of terms and a Practice Test (with answer key) so you can practice before the real test. This is extremely helpful because if you miss one, you can check the answer and it explains WHY that is the right

answer.Overall this is 160 pages of excellent review material and is a great addition to any other study materials you may have for your exam.**I received this book at a discount or for free in exchange for an honest, unbiased review. I hope you have found this review to be helpful**

This makes sure that you are completely prepared for when you finally sit down for the exam. My favorite part of the book is all of the practice questions that it has to make you feel more comfortable with the format of the test. I also love that they explain the answers very thoroughly to make sure that you learn from your mistakes and are actively learning the information. This is definitely guaranteed to improve your score on your exam. Good Luck!! try to provide very helpful reviews to give some insight before purchases, so if you appreciated this review at all, please click the "yes" button for me! Also, I do not get paid for any of my reviews and I am in no way rewarded for giving higher star ratings. My "payment" is a discounted item and that is given before my review so I am not obligated to give a more positive review. My ratings are also based solely on my personal experience and thoughts on the product, high score or low score. Thank you - have a great day!
