Customer Reviews

Be very careful when ordering that you order the textbook, not the workbook. I havent yet seen the textbook, though I thought that was what I was ordering. Workbook is useless without textbook.

The picture shown for the product has a CD in the right corner of the book. When you purchase the book, there is no CD that comes with it. Should the picture be changed as to not mislead the customer?

Good staff. I used it for an auto class. And it is very helpfull.
